**FOR IMMEDIATE RELEASE****Illunis LLC expands distribution channel**

Apo Star in Taiwan added as distributor of illunis products.

Minnetonka, MN, August 5, 2011 - illunis LLC today announces that Apo Star Co Ltd. has become the distributor of illunis camera products in Taiwan and South East Asia. Apo Star is a leading supplier of state-of-the-art components and systems for image processing, image analysis, and machine vision related applications. Adding Apo Star as our distributor in Taiwan and South East Asia provides illunis a professional and technical partner to better serve customers in this region.

"We are very excited about the opportunity to work with such a respected and knowledgeable partner in a growing market" says Erik Vermeulen, Director of Sales and Marketing, illunis LLC. "Apo Star has the technical knowledge and a strong sales team committed to understanding customer needs, then applying the right solution. Working with Apo Star allows us to market our high-resolution cameras in Taiwan and find those customers who demand the best"

About illunis LLC

Committed to being the world's leading supplier of digital imaging solutions for high performance imaging markets, illunis LLC solves its customers' needs by focusing on developing, manufacturing, and marketing leading edge solid state CCD and CMOS digital cameras for Industrial, Scientific, Military, and Aerial applications. illunis LLC strategy is to identify and market imaging solutions that provide value to OEM partners. illunis LLC was formed in 2000 and is privately owned.

About Apo Star

Formed in 2006, Apo Star specializes in camera system integration and provides sales and technical consultation in cameras, lensing, light sourcing, cables, frame grabbers and imaging software. Apo Star focuses on supplying a complete solution to the end-user and has a strong commitment to after sales care.
